DETAILED ACTION

In response to Appeal Brief filed December 31, 2003.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Ronald Brown on April 8, 2004.

The application has been amended as follows:

- a. In claims 7 – 10 : Please replace the numeral “ 3 ” in line 1 of the claims with the numeral “ 1 ”.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

a. Claims 1 – 2 and 4 – 15 are allowable over the Prior Art of Record because it fails to teach or suggest a temperature indicating surface comprising a second portion of a layer of material initially exposed to a threshold temperature and fused prior to use by a user to provide a second appearance forming a visible pattern in combination with the remaining limitations of the claims.

b. Claim 13 is allowable over the Prior Art of Record because it fails to teach or suggest a temperature indicating surface comprising a second pattern printed with irreversibly fusible material, wherein said irreversibly fusible material, upon exposure to a threshold temperature, melts and is absorbed into said adsorptive layer, thereby exposing a first pattern to view.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
